Work Experience

LTIMindtree

Software Engineer

June 2024 – Present

Pune, Maharashtra · Onsite

- Successfully completed an intensive 3-month training program focused on Java Full-Stack Development, which included core Java, Spring fundamentals, Spring Boot, Spring Security, and Angular.
- Collaborated on real-world project development, utilizing key skills in Java, RESTful APIs, Spring Boot, and Angular to deliver functional software solutions.
- Currently advancing technical proficiency by preparing for the Java OCJP certification, focusing on mastering advanced Java concepts.

MakerStudio

React Native Developer

Mar 2024 – June 2024

Wyoming, United States · Remote

- I am working on cross-platform app development using React Native, Expo and Typescript. While utilizing git for version control.
- Created visually appealing and consistent user interfaces leveraging NativeWind and Tamagui-like UI solutions.
- Through collaborative efforts with the team lead and backend developer, we meet project requirements and transform Figma designs into highly functional UI components.

Projects

Muvo | Cross-Platform Streaming Experience

Jan 2024

- Engineered Muvo, a cutting-edge movie and TV shows streaming platform, utilized the latest tech for seamless web and mobile experience.
- Crafted a responsive web experience using TypeScript, Next.js, and TailwindCSS. Enabled seamless logins via NextAuth, supporting Google and GitHub. Built a robust backend with MongoDB, Prisma ORM, and TMDB API, optimizing data handling with React SWR and Zustand for state management.
- Extended the Muvo experience to mobile platforms using React Native Expo, employing TypeScript for code consistency. Integrated Firebase for authentication and Firestore for seamless data storage. Muvo, as a platform, currently boasts 20+ users—a testament to its engaging and reliable streaming experience.

Flix AI | AI image generation

Feb 2024

- Effortlessly navigate Flixai with a stylish Tamagui UI, ensuring a seamless user experience. Rest assured with a secure Clerk authentication system, prioritizing user data.
- Harness the power of Flixai's image generation with prompt-based creativity. Tailor your art with fine-tuned settings, adjusting ratios and quantity, using Fooocus API to generate images.
- Download and share your masterpieces easily. Join Flixai's vibrant community to explore AI-generated art. Foster creativity by sharing and discovering inspiring works within our dynamic platform.

Nexly | E-commerce Store

Oct 2023

- Built Nexly, a vibrant e-commerce hub, employing Next.js, TypeScript, and Tailwind CSS for a sleek and dynamic front-end. Integrated Stripe and Clerk Auth to ensure secure transactions and user-friendly authentication.
- Managed Nexly's backend using Strapi, streamlining content management. Deployed effortlessly with Vercel for the client and dedicated hosting for Strapi, ensuring a reliable and scalable e-commerce solution.
- Set up a visually captivating and user-friendly interface with a minimalistic design philosophy. Ensured a seamless and personalized shopping journey, prioritizing user time and experience.

Skills

Frontend: HTML, CSS, Javascript, Typescript, React JS, Next JS, React Native/Expo, Angular, Tailwind CSS, Tamagui

Backend: Node JS with Express JS, Java with SpringBoot, MongoDB, MySQL, Firebase

Technologies/Tools: Docker, Git, GitHub, Postman

Extra Curricular: Runner Up in Best Research Paper Presentation Award at 4th National Level Conference on Innovative Global Trends, Exceptional Performance in KPIT Nova Hackathon.

Education

MIT ADT University, Pune

Bachelor of Technology in Computer Science

7.73 CGPA

Aug 2019 – June 2023
