PROJECTS

Muvo

Cross-Platform Streaming Experience

muvo.tv.vercel.app

- Engineered Muvo, a cutting-edge movie and TV streaming platform, utilized the latest tech for seamless web and mobile experiences.
- Crafted a responsive web experience using TypeScript, Next.js, and TailwindCSS. Enabled seamless logins via NextAuth, supporting Google and GitHub. Built a robust backend with MongoDB, Prisma ORM, and TMDB API, optimizing data handling with React SWR and Zustand for state management.
- Extended the Muvo experience to mobile platforms using React Native Expo, employing TypeScript for code consistency. Integrated Firebase for authentication and Firestore for seamless data storage. Muvo, as a platform, currently boasts 20+ users—a testament to its engaging and reliable streaming experience.

Flix AI

AI image generation

rishabh1S/flixai

- Effortlessly navigate Flixai with a stylish Tamagui UI, ensuring a seamless user experience. Rest assured with a secure Clerk authentication system, prioritizing user data.
- Harness the power of Flixai's image generation with prompt-based creativity. Tailor your art with fine-tuned settings, adjusting aspects like ratios and quantity, using Fooocus API to generate images.
- Download and share your masterpieces easily. Join Flixai's vibrant community to explore AI-generated art. Foster creativity by sharing and discovering inspiring works within our dynamic platform.

Nexly

E-commerce Store

rishabh1S/nexly nexlyhub.vercel.app

- Built Nexly, a vibrant e-commerce hub, employing Next.js, TypeScript, and Tailwind CSS for a sleek and dynamic front-end. Integrated Stripe and Clerk Auth to ensure secure transactions and user-friendly authentication.
- Managed Nexly's backend using Strapi, streamlining content management. Deployed effortlessly with Vercel for the client and dedicated hosting for Strapi, ensuring a reliable and scalable e-commerce solution.
- Set up a visually captivating and user-friendly interface with a minimalist design philosophy. Ensured a seamless and personalized shopping journey, prioritizing user time and experience.

EDUCATION

B.Tech in Computer Science

MIT ADT University

Aug 2019 – June 2023

CGPA: 7.73/10.00

WORK EXPERIENCE

React Native Developer

MakerStudio

Mar 2024 – Present

- Developed cross-platform applications using React Native, Expo, and TypeScript.
- Utilized nativewind and tamagui like UI solutions for effective CSS styling.
- Collaborated with team lead and backend developers to meet project requirements and transform Figma designs into functional UI components.

Intern

LTIMindtree

Feb 2023 – May 2023

- Engaged in three milestone assessments, excelling in each and emerging as the 'Star Performer' in the internship.
- Acquired strong proficiency in Java, Angular, and TypeScript through dedicated learning during the internship program.
- Proficiently utilised Java Database Connectivity (JDBC) to interact with and manage the MySQL database.

SKILLS

HTML CSS Javascript Typescript
Angular React JS Next JS
React Native Tailwind CSS Tamagui
Node JS Express JS Java
MySQL Mongo DB Firebase
Git Github Postman

OTHER ACHIVEMENTS

Runner Up

Best Research Paper Presentation Award at 4th National Level Conference on Innovative Global Trends.

Certificate of Appreciation

Exceptional performance in the KPIT Nova Hackathon.

Outstanding Performer

In Chess at the cluster level.
